PROFILE SUMMARY

Product Designer with 2+ years of experience across B2B applications, enterprise workflows, POS systems, healthcare, and finance – turning complex requirements into clear, usable interfaces. I work across research, UX, interaction, and visual design to create products that balance user needs with real business goals. My background spans enterprise SaaS, B2B platforms, healthcare, finance, and service design – across both web and mobile.

EXPERIENCE

Astenlabs

Feb 2025 – Present

UI/UX Designer

Led end-to-end product design and project management for multiple digital products, ensuring timely delivery and high-quality user experiences. Designed responsive web and mobile applications across fintech, POS, ERP, and business management domains.

- **Bonus & Commission** – Designed end-to-end financial modules for Company bonuses and commission processing, ensuring seamless and compliant workflows.
- **Petty Cash** – Designed a streamlined petty cash management solution for recording, tracking, approvals, and financial transactions.
- **Web POS Application** – Designed an intuitive web-based POS system to simplify billing workflows and improve operator efficiency.
- **Meds POS** – Designed a pharmacy POS and inventory management system covering billing, stock, expiry tracking, prescriptions, and delivery workflows.
- **Abraaj** – Designed a business management platform with intuitive workflows and responsive interfaces to improve operational efficiency.
- **Gastronomica** – Designed a digital food-service platform focused on simplifying restaurant operations and delivering seamless user experiences.

Delivered complete UX solutions including user flows, wireframes, high-fidelity prototypes, responsive UI, design systems, and usability testing. Collaborated closely with cross-functional teams to translate business requirements into intuitive, scalable, and user-focused digital products. Alongside product design, created logos, packaging designs, posters, marketing creatives, and other brand assets for digital and print applications, maintaining consistent and engaging visual identities.

ACHIEVEMENTS

International Conferences
